

Peter Deano

UI/UX Designer

I am writing to express my keen interest in the Web Design & Development position at your company. As a first-generation Filipino-American with a strong passion for technology and design, I am confident in my ability to contribute significantly to your team.

My academic background in Web Design & Development and Information Science & Digital Graphics at the University of Arkansas at Little Rock has equipped me with a solid foundation in HTML, CSS, JavaScript, and UX/UI design principles. I am particularly drawn to the intersection of technology and human experience, and I strive to create digital solutions that are not only functional but also visually appealing and accessible to all users.

My personal experiences as an immigrant have instilled in me a deep appreciation for empathy and inclusivity. I am committed to designing products that consider the diverse needs and perspectives of users. I am eager to apply my skills and knowledge to real-world projects and collaborate with talented individuals to deliver exceptional results.

Thank you for considering my application. I have attached my resume for your review and would welcome the opportunity to discuss my qualifications further in an interview.

Warm regards,

Peter Deano
